

ENVIRONMENTAL POLICY

Our company aims to leave a livable world to future generations; with its employees, customers and stakeholders in all areas of activity; It takes responsibility in line with the principle of respecting people, the environment and society. In this context:

- To increase the environmental awareness of our employees and stakeholders,
- Environmental Management System; Implementation with a preventive approach and risk-based thinking,
- To continue our activities in compliance with national and international legislation and standards,
- To use energy and natural resources efficiently to minimize our environmental impact,
- Ensuring waste recycling,
- To ensure that our employees and suppliers are trained and equipped to work in an environmentally friendly manner in all our activities,

Our company regards it as our primary duty on behalf of society and the environment, and we undertake to carry out all our work by taking environmental sustainability into consideration.
